

October 17, 2004

Dear FCC:

K-LOVE is the main radio station I listen to and it provides quality programming that I enjoy. It is quite common to hear it in local business when shopping in town.

We receive it through translators on 107.1, 100.9 and 92.9 in our area.

I am not in favor of the expansion of LPFM service because it would impact my favorite radio station. I believe the change would be a disappointment to many people in my community.

Sincerely,
Phil McPherson
